

Dear Valued Customer:

Please note that many of CMC's products, software, and technology are controlled for export or re-export worldwide by the U.S. Government. As such, these products, software, and technology are subject to the U.S. Export Administration Regulations (EAR).

Under the EAR and specific to CMC's products, exports, sales, or transfers of our products, software, or technology are not permitted to nationals from or located in the following countries:

Cuba  
Iran  
North Korea  
Syria  
Sudan

The U.S. may also impose export, re-export, or other restrictions to any destination, end user, or for any end use prohibited by the laws of the U.S. For this reason, we ask that your company complete and return the attached 2009 Export Compliance Certification form. Please complete this form and return to my attention.

ITT is dedicated to working proactively with our customers to improve global supply chain security. Together, we will build a safe, more efficient worldwide trade environment.

Please feel free to contact me if you have any questions. Thank you in advance for your cooperation.
